NOTES ON ARMY MATTERS.

EXAMINATION OF PRIVATES FOR COMMISSIONS-MEXICAN CO-OPERATION AGAINST RENEGADE INDIANS.

Washington, May 30 (Special) .- The report of the Governor's Island examining board which recently inquired into the qualifications of enlisted men seekcommissions in the Army is now under consideration at the War Department. Thirty-eight young men serving in the Department of the East appeared before the board. All had previously received the usual recommendations from their captains and Of this number the board found thirty qualified for promotion. Eight were decided to be deficient for reasons given in the report. Two are slightly undersize, their height being only 5 feet 6 inches. These young men were found well qualified in other respects, and the matter of height may be

No formal action has been taken in the case of Private Boniface, although it is expected that he will not have the privilege of appearing at Fort Leavenworth for the final examination of aspirants for shoulder straps. The indorsement of the board in his case says. In party (Candidate's manner fresh his case says, in part: "Candidate's manner fresh and flippant. Bearing unsatisfactory to the board, Endeavored to borrow money from a member of Endeavored to borrow money from a memoer of the board. Exhibited unnecessary extravagance in obtaining civilian clothes." The report also says that Boniface's eyes are defective. As the board is composed of conservative officers whose ability and good judgment are well known, it is thought that the Commanding General will approve the report. Should be do so there is little doubt that Secretary Lamont will carry out his recommendation.

If the recommendations of the War Department State Department are favorably acted upon the Mexican authorities will soon agree to co-oper ate with American troops toward breaking up the ss of Indians whose depredations on both sides of the Mexican border in recent years have been a constant source of annoyance. Some time General Miles suggested to Secretary Lamont that the State Department be urged to communicate with the Mexican Government on this subject. The believes that this is the most effective pursue to bring about order and security on the Mexican border. Indians engaged in depredaions when pressed by American troops often go to Mexico. Thus their capture on this side is imssible, and as the soldiers cannot follow them ross the border, and the Mexicans do not drive renegades back, many of the efforts toward the tenance of good order, in Arizona for example, Secretary Lamont has approved Gen-Miles's suggestion and has laid the matter be trai Miles's suggestion and has laid the matter belore Secretary Olney. Mr. Olney has, it is under-kood, communicated with the Mexican Government in the subject through Minister Ransom. Thus far if R. Ransom has reported no particular progress. It is expected, however, that Mexico will accede to sexpected, however, that Mexico will accede to the request. It is to her interest as well as that of the Linited States to put an end to Indian depredations on and near her border. Co-operation with the American froops is thought by Army officers to be the best and most effectual solution of the rouble. With well-armed troops on both sides of he border the Indians would soon see that dashing o and fro with lawless intent could not be continied with safety to themselves. Word from Mexico s awaited with much interest by officials of the War Department.

THE SEIZURE OF THE GEERING. THIS GOVERNMENT TO BE ASKED TO ENTER A PROTEST.

Hallfax, N. S., May 30.-The captain and crew of he seized American schooner Frederick Geering, jr., nade depositions to-day to the Registrar of the lice-Admiralty Court as to the facts of the seizure. aptain Doran swore that he had often fished at place where the vessel was seized; that this she was more than 150 yards outside the Govt cruiser Vigilant, the captain of which had his information had been given to another fishing essei, the Margaret Hopkins. The Vigilant saw he Frederick Geering, jr., fishing, but did not interere. She finally left the spot, and the cruiser therdeen hove in sight shortly afterward, and took therdeen hove in sight shortly afterward, and took ossession of the schooner. In taking her in tow mot turning, the Government steamer, according o Captain Doran, nearly capsized the schooner and caused a large quantity of mackerel to be lost overboard. Men from the cruiser refused to allow laptain Doran to throw out a log in order to measure the distance from shore when they started toward Liscombe.

The crew all swore to the truth of the captain's tatement. All the depositions will be forwarded to Vashington, and the United States Government till be asked to enter a protest against the seizure of the schooner.
